

## 0.1. Huge Increase in False Sexual Allegations?

0.1.1. In the Chapter on Child Matters I detailed the **huge** money earner for the FLIndustry [maybe \$10 Billion pa] from the simple device of "finger up the bum" allegations, inducing Bloke into meltdown with the Legal Aid circus to follow.

0.1.2. Now we already know that in the FLIndustry, Buttercup combines superbly with the lawyers to provide Sales assistance for their Marketing. But in "false alligators" [as finger up bum is commonly termed] Buttercup has no obvious up front **financial** reason for actually agreeing with her lawyer to depose those immortal words, allegedly from the lips of her kid, "daddy put his finger up my bum, it was Yukkie", apart of course from the Power Mongering, thus seeing Bloke erupt into [induced] "Toxic Masculinity".

0.1.3. To explain, the 1989 CSA formula prescribes the **same** payment from the "one night stand, never saw the kid" case as for Bloke with "Normal Order" [maybe 80% of Bloses] ie just less than 30% of nights, and any lawyer "worth her salt" has always drafted orders to deny Bloke the "Cliff Effect", albeit in Gyselman Nicholson CJ was then talking to 40% before Parliament demoted that cliff to 30%.

0.1.4. But all that changes dramatically, as seem hereabove, under the new formula where there is a new Cliff Effect at 14%. So we can see the plan of Howard/Parkinson/Ruddock is to tap into those 80% of Bloses under Normal Order, reducing them to "Camp Belsen Order" at a Relationships Australia POW [Supervised Time Spending, no McDonalds] Camp. But **now**, Buttercup essentially has the incentive to restore her income back to the formula all Buttercups know and love, the 1989 Bazza Special Formula.

0.1.5. But the big winners will be the whole of the circus that gets involved in false alligator cases, from the police right down to the SS Security Guard from RA, and all the shrinks etc in the middle, and not forgetting a whole army of lawyers sucking blood out of the Taxpayer via Legal Aid.

0.1.6. Don't say I didn't warn you about this one.
